## **Plan for New Restrooms, Picnic Shelter at Glen Helen Regional Park Approved**

**SAN BERNARDINO** - The Board of Supervisors on Tuesday approved plans to replace aging restrooms and a picnic shelter at Glen Helen Regional Park with more modern facilities.

The existing wood-framed restrooms and picnic shelter at the Coyote Loop area have been in place since the park opened more than 30 years ago. Time and the elements have taken their toll on the facilities, leaving their structural integrity in question and requiring replacement.

Regional Parks plans to replace the existing restrooms with a pre-manufactured metal structure. The new restrooms will increase the number of toilets available for both men and women. The new restrooms will also provide facilities for persons with disabilities.

"We want residents to come out enjoy their beautiful County parks, and that means we need to provide them with facilities they can enjoy and be proud of," Board of Supervisors Chairman Paul Biane said.

The County's Architecture and Engineering Department will solicit bids for the project, which is expected to cost about \$700,000.
